APARTMENT LIVING TIP

Hustle & Bustle

Fall brings us cooler weather, which begets Halloween, which begets Thanksgiving, which begets Christmas! When the summer heat subsides and coolness sets in, people get busy and start to enjoy all the festivities our city has to offer. We want you to be safe during this time of year with all the hustle and bustle. Always be aware! When walking to and from your car, always be ready and have your keys out. Make it a habit to lock your car doors—even when you are making a quick pit stop. This is the time of year you may have a prowler look in your car and see your purse or packages. Don't make it easy for them to get into your car. Keep these tips in mind when you are out and about enjoying the fall and winter season.

MY QUESTION

What Can't I Put in the Garbage Disposal?

Having a garbage disposal in your apartment is convenient. But remember – garbage disposals are not meant to handle all types of food waste. Avoid putting these items in your garbage disposal:

- Bones
- Coffee grounds
- Egg shells
- Fruit and vegetable peels, seeds and pits
- Oils
- Pasta
- Rice

FUN FACT: The 5 most popular ways to serve leftover turkey is as a sandwich, in stew, chili or soup, casseroles and as a burger.

Be Good to Your Neighbors This Holiday Season

You and I both know that neighbors truly put up with a lot. Whether it's noise, slamming doors, a barking dog, mud tracks in the breezeway, or a poorly parked vehicle. We know you put up with it to be understanding and to be polite to them. Just remember sometimes it is noise or situations that cannot be controlled. You may think that you never do anything to bother your neighbor, but I bet that there are others that feel the same way you do... and we all know that isn't always the case. It could be your alarm going off through the wall or the smell wafting over from the pizza you cooked as a midnight snack. Whatever it may be, let them know you appreciate them. So this holiday season, take some time to tell you neighbor thanks for putting up with you.

While we are on the topic of neighbors, if you are having guests over during the holidays for dinner or to celebrate a bowl game, be sure and be considerate of your next door neighbors when it comes to noise levels. They may not want to hear how excited you get when your favorite college football team scores a touchdown against the other team! Make sure the guests know the rules of quiet hours and guest parking locations.

Bottom line: Be nice to your neighbors! Take them some snacks, cookies or a card. If you don't know your neighbors...holidays can be lonely for some and this would be a great time to get to know them.

Tips for Less Holiday Stress

The holidays are a great opportunity to spend time with family and friends. But let's face it – the last couple months of the year can be pretty stressful too. Here are a few tips to help you keep stress in check this holiday season.

- Don't overcommit. Decide what's important to you and avoid taking on any additional obligations. Remember, it's okay to say no!
- Ask for help. For example, if you're planning a holiday get-together, ask everyone to bring a dish rather than preparing everything yourself.
- Take a time out. It's wonderful to be surrounded by family and friends, but allow enough time for yourself to relax, unwind, and do the things you enjoy.

Take a deep breath, and enjoy the holiday season!
